The **LightningElectric Ford F-59 van's** electric drivetrain delivers great range and efficiency while providing a quiet, smooth and familiar driving experience that your drivers will love.

Available in 80-mile and 110-mile range versions, this van provides practical, reliable service while producing zero emissions on the road. Charging is flexible, with Level 2 AC charging and DC Fast Charge supported, up to 50 kW. Active thermal management of the batteries ensures the best range, the best efficiency and the longest operation lifetime.

We use the highest-quality components available, including our thermally-managed batteries which deliver the best range, efficiency and lifetime of any batteries in the market. The batteries are fully under the floor so your cargo space isn't compromised.

* All-electric range can vary depending on route or drive cycle, environmental conditions, vehicle or equipment configurations, and driver behavior.

** Payload and passenger capacity can vary and greatly depend on vehicle wheelbase, seating configuration, and other characteristics or features as delivered by the OEM or chassis manufacturer. Equipment added to the base chassis by aftermarket upfitters or equipment installers could also affect payload and passenger capacity.

Lightning Systems is a proud member of Ford's eQVM program.
